<https://renaissanceteam.yolasite.com/>

-Yearbook orders are due December 18.

Classroom News

Language Arts- We are continuing to work on our Resilience Cafe. We are going to start working on the poem to show how someone we know demonstrates resilience. We took our test over "Night" by Elie Wiesel this week.

Geometry - We are proving congruence and similarity of triangles with theorems. Our candy box project begins tomorrow. We will complete this project on similarity before Christmas break.

Math- In math we are exploring equations. We are beginning using systems of equations to solve problems. We are also using elimination to solve our equations.

Science- In Science we are learning about chemistry and the atomic theory. We are working on our portfolios and the periodic table. Our class is also learning about elements, the periodic table and compounds. High school science is working on bonding. We learned 30 element symbols!

Social Studies - We completed our Revolutionary War project. We presented a model and a powerpoint focused on a battle of our choice. We had fellow students grade us using a rubric.

212 - We are working on a project called Life on Planet Earth: The Human Experience. This project is about global awareness and how developing countries differ from developed countries. It is also teaching us that we need to appreciate what we have in life and not be discouraged for what we don't have. Additionally, carpentry students are building hoop houses. Our aquaponic team is constantly monitoring the fish tank and water parameters. Garden beds and the greenhouse are maintained throughout the week. The recycling team is collecting recycling materials from all bins in each classroom. They bag and recycle all items. The cooking team is preparing a sweet potato hash tomorrow. The newsletter team is creating the newsletter bimonthly and we are also making improvements by editing rough drafts to make it the best it can be!

Learning In Action

On the top is Kelly and Madison working at The Bistro.

On the bottom Jonathon, Bradley, and Emily are showing their eco-friendly houses.

The bottom left is Summer and Coby showing their eco-friendly houses.

To the bottom right is our winning eco-friendly team Tia, Dawson and Alexis showing their presentation.
